## **Multi-Site Licence Requirements**

This document details the requirements for multi-site licence discounts for MoveDiary Pro licences.

Customers will be eligible for multi-site discounts where all the following criteria are met:

1. The multiple sites being licenced must be sites operated by the same limited company, limited liability partnership or similar legal entity, and may not be applied to different limited companies, limited liability partnerships or similar legal entities.
2. The software licences must be coterminal; that is to say that the licence periods must end on the same date.
3. Where an additional site licence is requested mid-term, the licence fee will be calculated pro-rata so as to end on the same date as the existing licence(s).
4. With the exception of (3), multi-site licences will be invoiced on a single invoice to a single company.
5. The software licence names requested should represent the same company name as invoiced, or recognised trading names of that company, with the only variation allowed being to identify the site(s) being licenced. Any decision on naming will be at the sole discretion of Summit Computing Limited, and their decision will be final.

The first licence of a multi-site licence will be charged at the standard rate, and additional licences will benefit from a reduced price. Please see our website [movediarypro.com](https://movediarypro.com) for up-to-date pricing. We reserve the right to change our prices at any time, which will be shown in the renewal invoice sent to you prior to your renewal date. If you do not agree to the price change, you are under no obligation to renew, and your licence will expire at the end of the licence period. Any changes we make to our prices during your licence period will not affect your existing licence in any way.

Updated: 27 June 2024
